Switching to refillable bottles

Since 2018, every new member of staff (4,000, with 160 directly employed by Tideway) receives a #OneLess branded refillable aluminium water bottle on their first day. The bottle includes the message 'Eliminating single-use plastic bottles for a healthier river Thames'. As of 2019 more than 5,000 bottles have been handed out. Tideway see this investment as a way to encourage environmentally conscious behaviours and expectations in its staff from the offset.

Removing single-use water bottles

Tideway are replacing plastic drinking bottles with glass tumblers and refill stations, eliminating **3,000** plastic bottles every year - 4,500 bottles as of September 2019.

Eliminating plastic in staff catering

Tideway's head office canteen has completely replaced plastic drink bottles with glass and cans. Tideway has also ensured drinking fountains are available on all its construction sites.

What's next

Tideway is also exploring the use of water tanks and plastic-free policies for all events, especially on the Thames, showing the various innovative alternatives to supplying single-use plastic water bottles, whatever the occasion.
